- Reactivate CNA1 Certification
- Update or change your address of record
- Update or change your legal name
INTRODUCTION

In 1987, the Nursing Home Reform Act was adopted by Congress as part of the Omnibus Budget Reconciliation Act (OBRA ’87). It was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nursing assistants who work in such facilities. Each state is responsible for following the terms of this federal law. As defined in the OBRA regulations, a nursing assistant competency evaluation program provides specific standards for nursing assistant related knowledge and skills. The purpose of a nursing assistant competency evaluation program is to ensure that candidates who are seeking to be nursing assistants understand these standards and can competently and safely perform the job of an entry-level nursing assistant. This handbook describes the process of taking the nursing assistant competency exam in Oregon and is designed to help prepare candidates for testing. There are two parts to the nursing assistant competency exam—a multiple-choice knowledge test and a manual skill test. Candidates must pass both parts of the exam and meet all requirements of the OSBN for certification in Oregon and to have his/her name placed on the Oregon Nursing Assistant Registry.

Oregon has approved HEADMASTER, LLP to provide the certification examination and scoring services for nursing assistant examinations. For questions not answered in this handbook, please contact HEADMASTER toll free at 800-393-8664 or go to www.hdmaster.com. This handbook should be kept for future reference.
CERTIFICATION PROCESS FOR OREGON CNA1

Nursing Assistant Level 1 Training Program Students

Complete an Oregon State Board of Nursing (OSBN) approved nursing assistant level-1 training program and pass the competency examination within three attempts and within two years of completing the training. The required Oregon level-1 training program is a minimum of 75 hours of classroom and 75 hours of clinical training. The curriculum includes subjects mandated by the federal government and emphasizes care of the geriatric client/patient. The OSBN also has specified additional content relative to other age groups and settings. Students who successfully finish the required classroom and clinical requirements and pass a training program final examination with a grade of at least 75 percent receive a nursing assistant training program certificate of completion.

Completion of a nursing assistant training program does not imply state certification.

Nursing Assistants Previously Certified in Oregon

If you have held an Oregon CNA certification in the past, please call the OSBN to confirm whether you are eligible to reactivate your Oregon CNA1 certification by taking the competency exam. Please call the OSBN at (971) 673-0685 to clarify whether reactivation by exam is the appropriate process for you at this time.

Military Corpsman or Medic Training

Complete military corpsman or medic training with evidence of at least 400 hours of paid employment, in a nursing-related capacity in the two years immediately preceding application date, and pass the competency examination within three attempts and within two years of application to the OSBN.

Nursing Graduates from Outside the United States

Graduates from a nursing program outside the United States must submit a transcript or other documentation, in English, to the OSBN documenting nursing education with the knowledge and skills necessary to perform CNA1 authorized duties. The OSBN shall determine eligibility to test from the documents submitted.

APPLICATION TO OBTAIN OREGON CNA1 CERTIFICATION

Complete the Oregon State Board of Nursing (OSBN) Nursing Assistant application packet available online from the OSBN website, www.oregon.gov/OSBN, or use the one given to you by your nursing assistant training instructor. Send the completed application packet including your certificate of training completion along with the correct fees to the OSBN at the address shown at the top of the application. The name entered on your application must be your current legal name. The two forms of identification you will present at the exam site for admission must match the name entered on your application. Remember to use the same name on the application and all forms, type or print the information clearly, answer all questions, provide written explanations of all YES responses to the background questions, and sign and date the application. Double-check your application for accurate and complete information before submission. If the application is not signed your application will be returned. Incomplete or illegible applications will delay processing.

Mail the following to the OSBN:

- Completed Fingerprinting Identity Verification Form
- Fingerprint card (Federal Form FD 258), if applicable
- Completed CNA1 Certification by Examination Application (found at: http://www.oregon.gov/OSBN/Pages/forms.aspx)
- Training program certificate of completion
- Non-refundable fee for the CNA1 Certification by Examination application
- Non-refundable fee for the fingerprint-based criminal background check processing fee, if applicable
EXAM FEES

Initial Examination (Knowledge and Skill Tests) ............................................................... $106
Reactivation by Examination (Knowledge and Skill Tests) ....................................................... $106
If Requesting an Oral Knowledge Exam (tape recording) ................................................... ADDITIONAL $35
Retake or Reschedule of both Knowledge and Skill Test ......................................................... $70
Retake or Reschedule of Knowledge Test Only ........................................................................ $25
Retake or Reschedule of Skill Test Only .................................................................................. $45

All fees paid to the Oregon State Board of Nursing are non-refundable.

AMERICANS WITH DISABILITIES ACT COMPLIANCE

If you have a qualified disability, you may request special accommodations for examination when you apply. Accommodations must be approved by OSBN in advance of examination. The request for ADA Accommodation Form is available on the OSBN website or by calling the OSBN. This form must be submitted with your application packet.

SCHEDULING AN EXAM DATE

First time exam candidates will be scheduled to take the knowledge test and skill test on the same day at either an approved Oregon State Board of Nursing (OSBN) regional exam site or at an approved OSBN in-facility exam site.

You will mail your examination application packet to OSBN. Approved exam dates can be obtained:

- from your instructor
- by visiting www.hdmaster.com, to view the available examination dates in real time
- by calling Headmaster toll free at 800-393-8664 to have an exam schedule faxed, emailed, or mailed to you.

As soon as you are released to test by the Oregon State Board of Nursing, you may choose your exam date from the current online exam schedule.

In-facility exam dates are normally arranged by training program instructors. Check with your training program instructor to see if your training site has been approved for in-facility testing. If your training site is an approved in-facility examination site, your training program instructor will tell you the exam date that has been scheduled for you when you complete nursing assistant training.

EXAMINATION DATE CONFIRMATION LETTER

You will receive an Examination Date Confirmation Letter when you are scheduled into an exam date.

Your Examination Date Confirmation Letter will include:
- a map to your examination site (if it is a regional exam site)
- your confirmed exam date and time
- examination expectations and
- instructions for verifying your exam date online

OR Candidate Handbook Updated 8-1-2015
If you misplace your Examination Date Confirmation Letter you may verify your exam date at www.hdmaster.com or if you need help with exam scheduling please call Headmaster at 800-393-8664. Your Examination Date Confirmation Letter is not required for exam admission, but it is recommended that you have it with you on your exam day.

**RESCEDULING AN EXAM DATE**

If you must reschedule your exam date, please do so as soon as possible. You may reschedule an exam date up until three business days before your scheduled exam date by calling Headmaster at 800-393-8664. Business days are Monday through Friday excluding official holidays that fall on weekdays. For example, if you want to reschedule an 8:00 am exam on Monday (and Wednesday, Thursday and Friday aren’t holidays) you must reschedule before close of business on the Tuesday before your test. To reschedule a 1:00 pm Thursday exam you must reschedule before close of business on the Friday before your test.

If you attempt to reschedule less than three business days before your requested exam date and time and/or don’t show up to take your exam you will be considered a “No Show”. You will receive a NO SHOW letter in the mail. You will need to repay your testing fees with OSBN. Once your payment is processed by OSBN and they release you to test, you may schedule a new exam date on-line by using your ID and PIN#’s at www.hdmaster.com, or by calling Headmaster at 800-393-8664 during business hours.

You may reschedule on-line up until seven (7) business days prior to your exam date. To reschedule online go to www.hdmaster.com and click on the “Oregon” button under the Nurse Aide header below the map of the USA then click on the “Schedule/Reschedule” button under Candidate Forms in the far left-hand column. Complete the requested login information and click the “Submit” button. A current regional exam site schedule will appear. Click on the exam site location and date from the exam schedule drop down window then click the “Submit” button. A printable Exam Date Confirmation Letter with your scheduled exam location and date will display for you to print.

**VERIFYING AN EXAM DATE**

You may view your scheduled exam date online at www.hdmaster.com by clicking on the link below the red “View your Scheduled Exam” bar at the top of the Headmaster home page. Complete the requested login information and click the “Submit” button (see below). A printable copy of your examination date confirmation letter will display with your scheduled exam site location, date, time and exam day information. You may also verify your exam date by calling Headmaster at 800-393-8664.

1. Type in your social security number
2. Choose Oregon CNA from the drop down box
3. Click on “Click here to submit your request”
LATE ARRIVALS OR UNABLE TO ATTEND A SCHEDULED EXAM

You should arrive at the exam site at least 20 to 30 minutes before your scheduled exam start time as indicated on your Examination Date Confirmation Letter. If you are not ready to test (checked-in) by your scheduled exam start time, you will not be allowed to test, will forfeit all exam fees, will have to submit new exam fees, and must schedule another exam date.

If circumstances beyond your control cause you to be late or prevent you from attending your scheduled exam, you may be allowed to schedule another exam date without having to repay exam fees. You must notify Headmaster no later than the next business day after the missed exam date by calling 800-393-8664 with the reason for your absence. Headmaster will consider rescheduling your exam based on when Headmaster received initial notice (phone call within one business day) and a signed and dated, documented and verified written explanation of why the exam was missed. Copies of supporting documentation, such as doctor’s notes, accident reports, funeral notices, military or court orders along with your explanation letter must be received within ten days of the missed exam date. If you do not provide sufficient notice (phone call within one business day from the missed exam date) and the requested written documentation (within ten days of your missed exam date), you will be considered a “No Show” and you will have to pay OSBN for another exam date. To pay for a new exam date, you can mail your correct fees to OSBN or contact OSBN at 1-971-673-0685. Once OSBN has processed your payment and released you to test, you will then be able to choose an exam date on-line from the current regional exam schedule (once you schedule yourself on-line, your Examination Date Confirmation Letter will pop-up on your screen that you may print) or call Headmaster at 800-393-8664 for assistance and if Headmaster schedules you into a test event, we will send you your Examination Date Confirmation Letter by mail or email.
CANCELLED EXAM DATES

If an exam date is cancelled due to weather or other unforeseen circumstances Headmaster staff will make every effort to contact you using the contact information we have on file to reschedule you, for no charge, to a mutually agreed upon new test date. You must, therefore, keep your contact information up to date in case we need to contact you. Call 800-393-8664 during regular business hours any time your contact information changes.

EXAM CHECK-IN (IDENTIFICATION) AND ALLOWED ITEMS

Proper identification is required to test. If you do not bring the required identification with you on the day of your examination, you will not be allowed to test and your examination fees will not be refunded. Two forms of original (no photo copies), signature-bearing, current (not expired) proper identification are required to test. At least one of the signature IDs must contain your photograph.

The name on your two forms of identification must match the name on your nursing assistant application packet submitted to the OSBN. If you have had a legal name change since submitting your application packet, you must bring an official document proving your legal name has changed such as a marriage certificate or divorce decree.

Examples of accepted identification include a current (not expired), signature and date bearing
- Driver’s license
- State issued identification card
- Passport (Passport Cards are not acceptable-there is no signature)
- Alien registration card
- Tribal identification card
- Social Security card
- Credit card or debit card
- 1st Aid or CPR card
- Hunting or fishing license
- High School ID for current year with a signature

Note: You must notify the OSBN whenever you have a name or address change.

You may not test if you have any type of temporary physical limitation that would prevent you from performing duties as a NA or hinder your test. (Examples: Cast, Brace, Crutches, sickness, etc.). Contact Headmaster at least three (3) business days prior to your scheduled test to reschedule a new test date.

It is strongly recommended that you have your Examination Date Confirmation Letter with you; however, it is not required for admission to test. Your Examination Date Confirmation Letter includes the exam site location, exam date and time and other important information regarding the examination process.

Bring at least two sharpened No. 2 pencils with good erasers if you are taking a knowledge test at a paper exam site. Bring a watch with a second hand. Wear comfortable, appropriate, clothing and non-skid shoes to your examination. You may wear nursing assistant attire such as scrubs if you wish. You will not be allowed to test if you wear inappropriate or revealing clothing.

No other items may be in your possession during your knowledge or skill test. This restriction includes but is not limited to electronic equipment, cell phones, backpacks, purses, notepaper, books, food or drink. Headmaster and examination sites are not responsible for your personal belongings.

Children, family members, friends and pets are not permitted in examination areas.
EXAM SECURITY

If you refuse to follow directions, use abusive language or disrupt the examination environment, you will be dismissed from the exam site, your examination will not be scored, your fees will not be refunded and a report of your behavior will be given to the OSBN. You will not be allowed to retest without OSBN approval.

Anyone who records or tries to remove examination information or material from the exam site will be prosecuted to the full extent of the law. In addition, your exam will be documented as a failure. You will not be allowed to retest without written approval to test from the OSBN. If you give or receive help from anyone during the examination, the exam will be stopped, your exam will not be scored, you will be dismissed from the exam site, and you will forfeit any examination fees paid. You will have a failure status documented as the outcome of your test attempt and your actions will be reported to the OSBN.

EXAMINATION METHOD

The time you are to report to the test site will be noted on your test confirmation letter. Please plan to arrive 20-30 minutes before your scheduled test start time for check in. (On occasion there may be an evening examination group or a modified test event.) You may be at the test site for up to eight hours, so please plan your day accordingly. Please call Headmaster at 800-393-8664, if you have questions.

After check-in and ID verification, the knowledge test will be administered to candidates. After candidates finish the knowledge test they will be assigned a time to take their skill test by the RN test observer. For skill retakes only, the RN test observer will notify you of your test time at check-in.

PAPER OR ONLINE KNOWLEDGE TESTS

Headmaster and OSBN approve exam sites for traditional knowledge paper and pencil testing and/or for electronic testing called WebEtest© using Internet connected computers.

Candidates testing online with WebEtest© use a computer keyboard, mouse or touch/scroll pad for knowledge testing, which allows transmission of tests for official scoring, eliminating examination material shipping time so test results are available days sooner than with traditional paper and pencil testing.

THE KNOWLEDGE (KNOWLEDGE/ORAL) TEST

The knowledge/oral knowledge test is in English. No other language is approved by OSBN for examination. No translation dictionaries or devices are allowed during examination.

Each knowledge/oral test is different. No candidates at a test event will have the same knowledge/oral test.

The Knowledge Test Proctor will hand out exam materials and will read the instructions for taking the knowledge test. You will have a maximum of ninety (90) minutes to complete the 80 question knowledge test. You will be told when fifteen (15) minutes are left. You may not ask questions about the content of the knowledge test (such as “What does this question mean?”) For paper and pencil tests fill in only one (1) oval on the answer sheet for each question on a paper knowledge test. DO NOT mark in the testing booklet. Marks in the test booklet will not be accepted as answers. Your answers must appear on the separate scan form answer sheet.

If you want to take the oral version of the knowledge test, you must request it when you submit your application to OSBN and pay the oral test fee. An oral test allows you to listen to a recording of the test questions through earphones connected to an MP3 player or computer work station. In addition, you will have a printed copy of the test questions to read while listening to the recording. On a computer based test you will see each question displayed on a computer screen while listening to the recording. For paper tests, you will mark your answers using a pencil onto a scanform. For computer based tests, you will use a computer keyboard/mouse or touch/scroll pad to enter your answers. All paper test materials must be left in the examination room. Anyone
who takes or tries to take materials or information from the examination room is subject to prosecution and will be reported to the OSBN.

The knowledge test consists of 80 multiple-choice questions. Questions are selected from subject areas based on the approved Oregon Test Plan and include questions from all the required categories as defined in OBRA regulations. The subject areas and the number of questions from each subject area are as follows:

- Safety (10)
- Infection Control (10)
- Personal Care (11)
- Mental Health (3)
- Care Impaired (2)
- Client Rights (8)
- Communication (6)
- Data Collection (4)
- Basic Nursing skills (11)
- Role and Responsibility (8)
- Disease Process (3)
- Growth & Development across the Ages (4)

You must have a score of 73% or better to pass the knowledge portion of the test.

**THE SKILL TEST**

The purpose of the skill test is to evaluate your nursing assistant skills. Your training program has prepared you for all the skill tasks that you may be asked to demonstrate. You will be randomly assigned one of the following four mandatory tasks for you to perform on your Skill test:

- Perineal Care with Hand Washing
- Bed Pan & Output with Hand Washing
- Catheter Care with Hand Washing
- Gown and Gloves, Emptying a Urinary Drainage Bag with Hand Washing

and an additional two (2) or three (3) randomly selected tasks from the following list for you to perform on your Skill test. All skill tests are comparable in difficulty. The steps that are listed in this handbook for each skill task are the *minimum* steps required for a nursing assistant to completely demonstrate the skill task. You must attain a score of 80% on each task without missing any key steps. Key steps have been determined by the OSBN Test Advisory Panel. If you fail a single skill task you will have to take a new skill test. Your skill retest will include one of the tasks you failed, one of the four mandatory tasks and 2 or 3 other tasks that will be randomly chosen.

**What To Expect During the Skill Test**

- Each of your three (3) or four (4) assigned tasks will begin with the reading of a scenario. The scenario for each task will be read to you immediately before you demonstrate each task.

- When you finish each task, tell the RN test observer you are finished and move to the designated “relaxation area.” When the test observer and actor are set up and ready for your next skill task demonstration the test observer will read the scenario for the next task. This allows you to have a few seconds between each task to relax before the test observer reads the next scenario to you.

- Listen carefully to all instructions given by the RN test observer. You may request to have any of the scenarios repeated anytime during your skill test.

- Be sure you understand all instructions before you begin your skill test because you may not ask questions once the skill test begins.
• The RN test observer will show you where equipment is located and demonstrate the use of all the equipment you will need for your three (3) or four (4) assigned skill tasks before starting your skill test.

• You will be allowed a maximum of forty-five (45) minutes to complete the three (3) or four (4) assigned skill tasks. You must correctly perform your three (3) or four (4) assigned skill tasks in order to pass the skill test. You will be alerted when fifteen (15) minutes remain for the completion time of your skill test.

• If you believe you made a mistake while performing any task, tell the RN test observer and then repeat the step(s) on the skill task you believe you performed incorrectly. You may repeat any skill step or steps you believe you have performed incorrectly at any time during your allotted 45 minutes or until you tell the RN test observer you are finished with the skill test (all three or four assigned skill tasks). Once the skill test begins, the RN test observer may not answer questions, but will re-read the scenario for you anytime you request.

---

**SKILL TASK LISTING**

---

**Performs hand hygiene consists of:** covers all surfaces of hands with hand sanitizer and rubs hands together until hands are completely dry.

1. **Ambulation of a Client Using a Gait Belt**
   - Knock on door. Perform hand hygiene. Explain procedure to be performed to the client.
   - Obtain gait belt. Lock bed brakes to ensure client's safety. Lock wheelchair brakes to ensure client’s safety.
   - Lower bed so client's feet will be flat on the floor when sitting on the edge of the bed.
   - Bring client to sitting position. Assist client to put on shoes.
   - Place gait belt around waist. Tighten gait belt.
   - Check gait belt by slipping fingers between gait belt and client.
   - Stand in front of and face the client.
   - Grasp the gait belt on each side of the client with an underhand grip.
   - Stabilize the client’s legs.
   - Bring client to standing position, using proper body mechanics.
   - Grasp gait belt with one hand, using under hand grip.
   - Stabilize client with other hand by holding forearm, shoulder, or using other appropriate method to stabilize client.
   - Ambulate the client and return client to wheelchair.
   - Assist client to sit in the wheelchair in a controlled manner that ensures safety.
   - Remove gait belt. Leave client in position of comfort and safety.
   - Maintain respectful, courteous interpersonal interactions at all times.
   - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

2. **Ambulation of a Client with a Walker Using a Gait Belt**
   - Knock on door. Perform hand hygiene. Explain procedure to client.
   - Lock bed brakes to ensure client’s safety. Lock wheelchair brakes to ensure client’s safety.
   - Lower bed so client's feet will be flat on the floor when sitting on the edge of the bed.
   - Bring client to sitting position. Assist client in putting on shoes.
   - Ensure client has stabilized walker.
   - Position self behind and slightly to side of client.
3. **Anti-Embolism Elastic Stockings (One Leg)**
   - Knock on door. Perform hand hygiene. Explain procedure to client.
   - Provide for client’s privacy by only exposing the (right/left) leg.
   - Roll, gather or turn stocking down inside out at least to the heel.
   - Place stocking over the toes, foot, and heel. Roll or pull stocking up leg.
   - Check toes for possible pressure from stocking and adjust as needed.
   - Leave client with a stocking that is smooth and wrinkle free.
   - Maintain respectful, courteous interpersonal interactions at all times.
   - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

4. **Assisting a Client to Use a Bedpan with Hand Washing**
   - Knock on door. Perform hand hygiene. Explain the procedure to the client.
   - Provide privacy - pull curtain. Position client on bedpan correctly.
   - After placing bedpan, raise head of bed to comfortable level.
   - Leave tissue within reach of client. Leave call light within reach of client.
   - Leave room until called. Put on gloves.
   - Gently remove bedpan. Measure output using a graduate.
   - Empty graduate into toilet, rinse receptacles and empty rinse water into toilet.
   - Wash/assist client to wash and dry hands.
   - Lower bed, if it was raised. Record output on recording sheet.
   - Wash hands - turn on water.
   - Thoroughly wet hands. Apply liquid soap to hands.
   - Rub hands together for 20 seconds using friction.
   - Using friction, rub interlaced fingers together while pointing downward.
   - Clean under fingernails. Wash all surfaces of hands and wrist with liquid soap.
   - Rinse hands thoroughly under running water with fingers pointed downward.
   - Dry hands on clean paper towel(s).
   - Turn off faucet with a SECOND (last) clean dry paper towel, or with a dry section of a previously used paper towel.
   - Discard paper towels to trash container as used.
   - Does not recontaminate hands at any time during the procedure.
   - Maintain respectful, courteous interpersonal interactions.
   - Leave call light or signaling device within easy reach of the client.

5. **Assisting a Dependent Client with a Meal in Bed**
   - Knock on door. Perform hand hygiene. Explain procedure to the client.
   - Look at diet card to check that the client has received the correct tray.
   - Position the client in an upright position, at least 45 degrees.
   - Wash and dry client’s hands before assisting with meal.
   - Sit next to the client while assisting with meal.
   - Describe the foods being offered to the client. Offer fluid frequently.
   - Offer small amounts of food at a reasonable rate.
6. **Assisting a Dependent Client with a Meal in a Chair**
   - Knock on door. Perform hand hygiene. Explain procedure to the client.
   - Look at diet card to check that the client has received the correct tray.
   - Wash and dry client's hands before assisting with meal.
   - Sit next to the client while assisting with meal.
   - Describe the foods being offered to the client. Offer fluid frequently.
   - Offer small amounts of food at a reasonable rate.
   - Allow client time to chew and swallow.
   - Wipe client's hands and face during meal as needed.
   - Leave client clean and in a position of comfort. Place soiled linen in hamper.
   - Record intake of total solid food eaten as a percentage on I/O pad.
   - Record fluid intake in cc/ml on I/O pad.
   - Maintain respectful, courteous interpersonal interactions at all times.
   - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

7. **Bed Bath (Partial - Face, Arm, Hand and Underarm)**
   - Knock on door. Perform hand hygiene. Explain procedure to the client. Pull privacy curtain.
   - Raise bed to appropriate working level. Cover client with a bath blanket or sheet.
   - Remove remaining top bed cover. Fold bed cover to bottom of bed or place aside.
   - Remove client's gown without exposing client.
   - Fill basin with comfortably warm water. Wash face. Dry face.
   - Place towel under arm, exposing one arm.
   - Using soap: wash arm, hand, and underarm.
   - Rinse arm, hand, and underarm. Dry arm, hand, and underarm.
   - Assist client to put on a clean gown. Rinse basin. Store basin.
   - Dispose of soiled linen in appropriate container. Lower bed if it was raised.
   - Maintain respectful, courteous interpersonal interactions at all times.
   - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

8. **Catheter Care with Hand Washing**
   - Knock on door. Perform hand hygiene. Explain procedure to client.
   - Provide for privacy - pull curtain.
   - Put on gloves. Position a bath blanket to maintain privacy.
   - Check to see that urine can flow, unrestricted, into the drainage bag.
   - Use soap and water to carefully wash around the catheter where it exits the urethra.
   - Hold catheter where it exits the urethra.
   - With fingers near the urethra, cleans at least 3-4 inches down the catheter tube.
   - Clean with stroke(s) only away from the urethra.
   - Use clean portion of cloth for stroke(s). Rinse using stroke(s) only away from the urethra.
   - Rinse using clean portion of cloth for stroke(s). Pats dry with a clean towel or wash cloth.
   - Do not allow the tube to be pulled at any time during the procedure.
   - Replace top cover over client. Remove bath blanket.
   - Leave client in a position of safety and comfort.
9. **Denture Care of a Dependent Client**
   - Knock on door. Perform hand hygiene. Explain procedure to client.
   - Line sink (cloth towel or washcloth – no paper towel allowed) with a protective lining or fill with water to prevent damage to the dentures in case they are dropped.
   - Put on gloves. Carefully remove dentures from cup.
   - Handle dentures carefully to avoid damage. Apply denture cleanser to toothbrush.
   - Thoroughly brush dentures, including the inner, outer, and chewing surfaces of upper and/or lower dentures.
   - Rinse dentures using clean cool running water.
   - Rinse denture cup. Place dentures in denture cup.
   - Add cool clean water to denture cup. Rinse equipment and return to storage.
   - Discard sink’s protective lining in an appropriate container, or drain sink.
   - Maintain respectful, courteous interpersonal interactions at all times.
   - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

10. **Undressing and Dressing a Client**
    - Knock on door. Perform hand hygiene. Explain the procedure to the client.
    - Provide privacy - pull curtain. Keep client covered while removing gown.
    - Remove gown from unaffected side first. Place used gown in laundry hamper.
    - During the next two steps, always dress client beginning with the weak side first.
    - When dressing the client in a shirt/blouse, insert your hand through the sleeve of the shirt/blouse and grasp the hand of the client.
    - When dressing the client in sweat pants assist the client to raise his/her buttocks or rock client side to side and draw the pants over the buttocks and up to the client’s waist.
    - When putting on the client’s socks, draw the socks up the client’s foot until they are smooth.
    - Leave the client comfortably and properly dressed.
    - Maintain respectful, courteous interpersonal interactions at all times.
    - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

11. **Fingernail Care (One Hand)**
    - Knock on door. Perform hand hygiene. Explain procedure to the client.
    - Immerse nails in comfortably warm water.
    - Verbalize to soak nails for at least five (5) minutes. Dry hand thoroughly.
    - Specifically dry between fingers. Gently clean under nails with orange stick.
    - Gently push cuticle back with a towel or washcloth.
    - File each fingernail. Rinse equipment. Return equipment to storage.
    - Discard soiled linen in linen hamper or equivalent.
    - Maintain respectful, courteous interpersonal interactions at all times.
    - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.
12. **Foot Care (One Foot)**
- Knock on door. Perform hand hygiene. Explain procedure to the client.
- Fill foot basin with comfortably warm water. Remove sock.
- Immerse foot in comfortably warm water for 5 to 20 minutes (time is to be verbalized).
- Use water and soapy washcloth. Wash entire foot. Wash between toes.
- Rinse entire foot. Rinse between toes.
- Dry foot thoroughly, dry between toes thoroughly.
- Warm lotion by rubbing it between hands. Massage lotion over entire foot, avoiding between the toes.
- If any excess lotion, wipe with a towel. Replace sock on foot.
- Rinse basin. Return basin to storage area.
- Place clean bottom sheet on mattress. Secure two fitted corners.
- Roll or fan fold clean linen against client's back.
- Assist the client to roll over the bottom linen, preventing trauma and avoidable pain to client.
- Remove soiled linen without shaking. Avoid touching linen to uniform.
- Dispose of soiled linen in hamper or equivalent.
- Pull through and smooth out the clean bottom linen.
- Secure the other two fitted corners. Place clean top linen over covered client.
- Place clean blanket or bed spread over covered client.
- Remove used top linen keeping client unexposed at all times.
- Tuck in clean top linen at the foot of bed, while providing room for feet to move.
- Tuck in clean blanket or bedspread at the foot of bed, while providing room for feet to move.
- Apply clean pillowcase without contaminating linen and clothing.
- Gently lift client's head while replacing the pillow. Lower bed if it was raised.
- Return side rails to lowered position, if side rails were used.
- Maintain respectful, courteous interpersonal interactions at all times.
- Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

13. **Making an Occupied Bed**
- Knock on door. Perform hand hygiene. Gather linen. Transport linen away from body.
- Place clean linen on a clean surface. (bedside stand, chair, or overbed table)
- Explain procedure to client. Provide privacy.
- Raise bed to working height. Client is to remain covered at all times.
- Assist client to roll onto side.
- Roll or fan fold soiled linen, soiled side inside, to the center of the bed.
- Place clean bottom sheet on mattress. Secure two fitted corners.
- Roll or fan fold clean linen against client's back.
- Assist the client to roll over the bottom linen, preventing trauma and avoidable pain to client.
- Remove soiled linen without shaking. Avoid touching linen to uniform.
- Dispose of soiled linen in hamper or equivalent.
- Pull through and smooth out the clean bottom linen.
- Secure the other two fitted corners. Place clean top linen over covered client.
- Place clean blanket or bed spread over covered client.
- Remove used top linen keeping client unexposed at all times.
- Tuck in clean top linen at the foot of bed, while providing room for feet to move.
- Tuck in clean blanket or bedspread at the foot of bed, while providing room for feet to move.
- Apply clean pillowcase without contaminating linen and clothing.
- Gently lift client's head while replacing the pillow. Lower bed if it was raised.
- Return side rails to lowered position, if side rails were used.
- Maintain respectful, courteous interpersonal interactions at all times.
- Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

14. **Making an Unoccupied Bed**
- Transport clean linen away from body.
- Place clean linen on a clean surface. (bedside stand, chair, or overbed table)
- Elevate bed to appropriate working height.
- Remove soiled linen from bed without contaminating uniform.
- Place removed linen in laundry hamper.
- Apply bottom fitted sheet, keeping it straight and centered.
- Make bottom linen smooth and/or tight, free of wrinkles.
- Place clean top linen and blanket or bed spread on the bed.
- Tuck in top linen and blanket or bedspread at the foot of the bed.
- Make mitered corners at the foot of the bed.
- Apply clean pillowcase without contaminating linen and clothing.
- Leave bed completely and neatly made.
- Return bed to lowest position if it was raised. Perform hand hygiene.
15. **Measure and Record Oral Fluid Intake at Mealtime**
   - Knock on door. Perform hand hygiene. Explain procedure to the client.
   - Observe dinner tray.
   - Use paper, pencil, and/or mental computation to calculate grand total cc or ml consumed from three different glasses.
   - Record the total cc or ml of fluid consumed.
   - Maintain respectful, courteous interpersonal interactions.
   - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

16. **Mouth Care**
   - Knock on door. Perform hand hygiene. Explain procedure to the client.
   - Provide for client's privacy. Drape the chest with towel to prevent soiling.
   - Put on gloves. Apply toothpaste to toothbrush/toothette.
   - Brush all inner, outer, and chewing surfaces of all upper and lower teeth.
   - Clean tongue. Clean gums.
   - Assist client in rinsing mouth. Wipe/dry client's mouth.
   - Remove soiled linen. Place soiled linen in hamper or equivalent.
   - Use water, washcloth and soap. Clean rectal area from front to back with single strokes.
   - Perform hand hygiene. Leave call light or signaling device within easy reach of the client.
   - Clean the vaginal area from top to bottom, rinse the area from top to bottom, pat dry.
   - Cover the exposed area with the bath blanket or clean sheet.

17. **Mouth Care for a Comatose Client**
   - Turn client to a side lying position to avoid choking or aspiration.
   - Drape as needed to protect from soiling.
   - Put on gloves. Use toothette(s) dipped in water. Squeezes excess water from toothette(s).
   - Gently and thoroughly clean the inner, outer, and chewing surfaces of all upper and lower teeth.
   - Gently and thoroughly clean the gums and tongue.
   - Cover client with bath blanket. Expose perineum only.
   - Separate labia. Use water and soapy washcloth.
   - Use water, washcloth and soap. Clean rectal area from front to back with single strokes.
   - Use a clean portion of a wash cloth for any cleaning stroke(s).
   - Rinse area from front to back. Pat dry. Position client (mannequin) on her back.

18. **Perineal Care for a Female Client with Hand Washing**
   - Knock on door. Performs hand hygiene. Explain procedure to the client (mannequin).
   - Provide privacy - pull curtain. Raise the bed to an appropriate working height.
   - Fill basin with comfortably warm water. Put on gloves.
   - Turn client or raise hips and place water proof pad under buttocks.
   - Make sure client is comfortably positioned on back.
   - Cover client with bath blanket. Expose perineum only.
   - Separate labia. Use water and soapy washcloth.
   - Clean one side of labia from top to bottom.
   - Use a clean portion of a wash cloth with each stroke for each step.
   - Assist client to turn onto side away from candidate.
   - Use water, washcloth and soap. Clean rectal area from front to back with single strokes.
   - Use a clean portion of a wash cloth for any cleaning stroke(s).
   - Rinse area from front to back. Pat dry. Position client (mannequin) on her back.
   - Turn client or raise hips to remove water proof pad from under buttocks.
o Replace top cover over client, remove bath blanket.
  o Dispose of soiled linen in an appropriate container.
  o Rinse basin, return basin to storage.
  o Lower bed, if it was raised.
  o Wash hands - turn on water.
  o Thoroughly wet hands. Apply liquid soap to hands.
  o Rub hands together for 20 seconds using friction.
  o Using friction, rub interlaced fingers together while pointing downward.
  o Clean under fingernails. Wash all surfaces of hands and wrist with liquid soap.
  o Rinse hands thoroughly under running water with fingers pointed downward.
  o Dry hands on clean paper towel(s).
  o Turn off faucet with a SECOND (last) clean dry paper towel, or with a dry section of a previously used paper towel.
  o Discard paper towels to trash container as used.
  o Does not recontaminate hands at any time during the procedure.
  o Maintain respectful, courteous interpersonal interactions at all times.
  o Leave call light or signaling device within easy reach of the client.

19. Re-Position Client on Side in Bed
  o Knock on door.
  o Perform hand hygiene. Explain procedure to client. Provide privacy - pull curtain.
  o Position bed flat. Raise bed to proper working level.
  o Ensure that the client's face never becomes obstructed by the pillow.
  o From the working side of bed - move upper body toward self.
  o Move hips toward self. Move legs toward self.
  o Assist/turn client onto the correct side as read to him/her in the scenario.
  o Check to be sure client is not lying on his/her arm.
  o Maintain client's correct body alignment.
  o Place support devices under the client's head and upper arm, behind back, and between knees.
  o Lower bed, if it was raised. Lower side rail, if it was used.
  o Maintain respectful, courteous interpersonal interactions at all times.
  o Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

20. Putting on and Removing Gown and Gloves, Measure and Record Output from a Urinary Drainage Bag with Hand Washing
  o Perform hand hygiene.
  o Face the back opening of the gown. Don't shake gown during unfolding.
  o Place arms through each sleeve. Ties the neck opening.
  o Ties the waist, making sure that the back flaps completely cover clothing.
  o Put on gloves. Gloves overlap gown sleeves at the wrist.
  o Knock on door. Explain procedure to client. Provide for privacy.
  o Place a barrier on the floor under the drainage bag.
  o Place the graduate on the previously placed barrier.
  o Open the drain to allow the urine to flow into the graduate.
  o Does not touch the graduate with the tip of the tubing.
  o Close the drain. Wipe the drain with antiseptic wipe.
  o Secures drain. With graduate at eye level, measure output.
  o Record the output in cc/ml. Empty graduate into toilet. Empty rinse water in toilet.
  o Return equipment to storage.
  o Leave client in a position of safety and comfort.
  o Remove gloves before removing gown.
  o Remove gloves turning inside out and folding one glove inside the other.
  o Do not touch outside of gloves with bare hand at any time.
o Dispose of the gloves, without contaminating self, in appropriate container.
o Unfasten gown at the neck. Unfasten gown at the waist.
o Remove gown by folding soiled area to soiled area. Does not touch front of gown with bare hands at any time.
o Dispose of gown in an appropriate container.
o Wash hands - turn on water.
o Thoroughly wet hands. Apply liquid soap to hands.
o Rub hands together for 20 seconds using friction.
o Using friction, rub interlaced fingers together while pointing downward.
o Clean under fingernails. Wash all surfaces of hands and wrist with liquid soap.
o Rinse hands thoroughly under running water with fingers pointed downward.
o Dry hands on clean paper towel(s).
o Turn off faucet with a SECOND (last) clean dry paper towel, or with a dry section of a previously used paper towel.
o Discard paper towels to trash container as used.
o Does not recontaminate hands at any time during the procedure.
o Maintain respectful, courteous interpersonal interactions.
o Leave call light or signaling device within easy reach of the client.

21. **Range of Motion (ROM) Lower Extremities (Hip and Knee)**
o Knock on door. Perform hand hygiene.
o Explain procedure to the client. Provide privacy - pull curtain.
o Position client supine. Position client in good body alignment.
o Correctly support joints by placing one hand under the knee and the other hand under the ankle of the leg.
o Move the entire leg away from the body. (abduction)
o Move the entire leg toward the body. (adduction)
o Complete abduction and adduction of the hip at least three times.
o Continue to correctly support joints by placing one hand under the client's knee and the other hand under the client's ankle.
o Bend the client's knee and hip toward the client's trunk. (flexion of hip and knee at the same time - may also do separately)
o Straighten the knee and hip. (extension of knee and hip in the same motion - may also do separately)
o Complete flexion and extension of the knee and hip at least three times.
o Ask if causing any discomfort or pain sometime during ROM procedure.
o Do not force any joint beyond the point of free movement.
o Leave client in a comfortable position.
o Maintain respectful, courteous interpersonal interactions at all times.
o Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

22. **Range of Motion (ROM) Upper Extremities (One Shoulder)**
o Knock on door. Perform hand hygiene.
o Explain procedure to the client. Provide privacy - pull curtain.
o Position client on back. Position client in good body alignment.
o Correctly support client's joint by placing one hand under the elbow and the other hand under the client's wrist.
o Raise the client's arm up and over the client's head. (flexion)
o Bring the client's arm back down to the client's side. (extension)
o Complete flexion and extension of shoulder at least three times.
o Continue same support for shoulder joint.
o Move the client's entire arm out away from the body. (abduction)
o Return arm to side of the client's body. (adduction)
o Complete abduction and adduction of the shoulder three times.
o Ask if causing any discomfort or pain sometime during ROM procedure.
o Do not force any joint beyond the point of free movement.
o Leave client in a comfortable position.
o Maintain respectful, courteous interpersonal interactions at all times.
o Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

23. **Taking & Recording Oral Temperature, Radial Pulse, and Respirations**
o Knock on door. Perform hand hygiene. Explain procedure to client.
o Put sheath on thermometer probe. Correctly turn on digital oral thermometer.
o Gently insert bulb end of thermometer in mouth-under tongue.
o Tell client to hold thermometer in place with lips closed.
o Leave thermometer in place until it beeps. Remove thermometer. Dispose of sheath.
o Read and record the temperature on the recording sheet.
o Wipe the thermometer clean with alcohol pad or discard sheath appropriately.
o Locate the radial pulse by placing tips of fingers on thumb side of the client's wrist.
o Count pulse for 60 seconds. Record reading on the recording sheet.
o Count respirations for 60 seconds. Record count on recording sheet.
o Maintain respectful, courteous interpersonal interactions at all times.
o Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

24. **Taking & Recording a Radial Pulse & Respirations**
o Knock on door. Perform hand hygiene. Explain procedure to client. Provide for client's privacy.
o Locate the radial pulse by placing tips of fingers on the thumb side of the client's wrist.
o Count pulse for 60 seconds. Record count on the recording sheet.
o Count respirations for 60 seconds. Record count on the recording sheet.
o Maintain respectful, courteous interpersonal interactions at all times.
o Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

25. **Taking & Recording Blood Pressure (One-Step Procedure)**
o Knock on door. Perform hand hygiene. Explain procedure to client.
o Provide privacy - pull curtain.
o Position client with forearm relaxed and supported in a palm-up position, approximately at the level of the heart.
o Roll client's sleeve up about 5 inches above the elbow.
o Apply the appropriate size cuff around the upper arm just above the elbow.
o Correctly align cuff over brachial artery.
o Clean earpieces of stethoscope appropriately and place in ears. Clean diaphragm.
o Locate brachial artery with fingertips. Place stethoscope over brachial artery.
o Hold stethoscope snugly in place. Inflate cuff to 160-180 mm Hg.
o Slowly release air from cuff to disappearance of pulsations. Remove cuff.
o Record blood pressure reading on recording sheet.
o Maintain respectful, courteous interpersonal interactions at all times.
o Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

26. **Transfer from Bed to Wheelchair**
o Knock on door. Perform hand hygiene. Explain procedure to client.
o Lower bed to same level as wheelchair seat.
o Ensure client safety by locking wheels on bed.
o Position wheelchair at foot or head of bed with arm of wheelchair almost touching the bed.
o Lock wheelchair brakes. Ensure bed is same level as wheelchair seat.
o Bring client to a sitting position using proper body mechanics.
Apply transfer belt around client’s waist.
Check transfer belt for fit by sliding fingers under belt to determine if it is snug but not too tight.
Assist client in putting on shoes.
Bring client to standing position using proper body mechanics.
Transfer client from bed to wheelchair by assisting client to pivot and sit in a controlled manner that ensures safety.
Remove transfer belt. Leave client in a position of safety & comfort.
Maintain respectful, courteous interpersonal interactions at all times.
Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

27. **TRANSFER FROM WHEELCHAIR TO BED**
Knock on door. Perform hand hygiene. Explain procedure to client.
Position wheelchair at foot or head of bed with arm of the wheelchair almost touching the bed.
Lock wheelchair brakes. Lock bed brakes.
Ensure bed is same level as wheelchair seat. Place gait belt around waist.
Check gait belt for fit by sliding fingers under belt to determine if it is snug but not too tight.
Ensure client’s feet are flat on the floor.
Instruct client to place hands on wheelchair arm rests. Use legs to stabilize client.
Assist client to standing position, using an underhand grip on gait belt.
Assist client to standing position using proper body mechanics.
Assist client to pivot and sit on bed in a controlled manner that ensures safety.
Remove gait belt. Remove client’s shoes. Assist client to lie down in center of bed.
Make sure client is comfortable and in good body alignment.
Maintain respectful, courteous interpersonal interactions at all times.
Perform hand hygiene. Leave call light or signaling device within easy reach of the client.

---

**Skill Tasks with Recording**
The RN test observer will provide a recording sheet similar to the one displayed below if a candidate’s skill test includes a skill task which requires recording a count or measurement.

---

**CANDIDATE FEEDBACK – EXIT SURVEY**
Candidates are provided an exit survey after they finish testing. The survey is confidential and will not have any bearing on the outcome of any test. You are encouraged to complete the survey questions regarding the examination process to help improve the testing process.
Exam Results

After you have completed both the knowledge test and skill test components and your exam has been officially scored and double-checked in Headmaster’s Helena, Montana, office by an official scoring team, Headmaster will send your notification of test results to you by mail or you may securely access your results at www.hdmaster.com. The OSBN will receive your results for state record the day your test is scored. Headmaster and the OSBN cannot release results over the phone. Paper and pencil exam results are normally available online after 6:00 p.m. Mountain time (excluding Saturdays, Sundays and Holidays) at www.hdmaster.com three business days after your exam date. Computer based exam results are normally available online after 6:00 p.m. Mountain time one business day (excluding Saturdays, Sundays and Holidays) after your exam date.

Due to security and confidentiality requirements, test results can not be given out over the telephone. You must wait to receive them in the mail or access them online via the Oregon Nurse Aide page of our website, www.hdmaster.com.

When you pass your exam, you may be certified and listed on the Oregon Nursing Assistant Registry ONLY AFTER you meet all Board requirements as noted in the CNA1 Certification by Examination Information publication available from the OSBN website. Notice one of those requirements includes passing both the knowledge and skill test components of the Oregon nursing assistant examination.

If you fail a test component and wish to retake the test(s) that you failed, you must send the appropriate retake fee(s) to OSBN, or call OSBN at 1-971-673-0685. Missed skill steps are included in your result letter (Headmaster Form 1301) mailed to your address of record or securely accessed and printed from the Oregon Nurse Aide page of our website. All result letters are posted online after 6:00 p.m. Mountain time the day tests are scored by Headmaster. To check for your test results, visit www.hdmaster.com, click the “Oregon” button and then click the “On-line Test Results” button under the Candidate Forms column.

You have three attempts to pass the knowledge and skill test portions of the exam within two years from your date of nursing assistant training program completion. If you fail three times, or do not complete testing within two years from completion of training, you must complete a new OSBN approved training program in order to become eligible to further attempt Oregon CNA1 examinations. An attempt means checking in for the competency evaluation and receiving the knowledge test booklet or the skill test instructions including the skills that are to be performed. If a candidate decides to not complete the test after receiving the knowledge test booklet or the skill test instructions, the attempt will be scored as a failure.

Retaking the Oregon Nursing Assistant Exam

- You will receive a test results letter after your test is officially scored and double-checked by Headmaster. Headmaster sends your notification of test results by mail or you may securely access your results at www.hdmaster.com.

- A copy of your test results letter can be securely accessed and printed from www.hdmaster.com any time after your test has been officially scored.

- When your test results letter informs you that you failed the knowledge and/or skill portion of the examination and when you want to apply for a retest, you will send the appropriate non-refundable fees to OSBN or you may call OSBN at 1-971-673-0685. Once your payment is processed by OSBN and OSBN authorizes (releases) you to test, you can schedule a new exam date.
• If you lose your failure letter (Headmaster Form 1301), you can go online and print another copy.

• Headmaster will be happy to schedule you over the telephone for your retest, or you may schedule online. You must be released to test by OSBN prior to calling Headmaster or going on-line to schedule a new exam date.

• OSBN staff must receive your non-refundable retake fee in order to make you eligible to test again by authorizing (releasing) you to test.

SAMPLE QUESTIONS

The following questions are samples of the kinds of questions that you will find on the knowledge/oral test. Check your answers to these questions using the answer box below.

1. Clean linens that touch the floor should be:
   (A) Picked up quickly and placed back on the clean linen cart
   (B) Used immediately on the next client bed
   (C) Considered dirty and placed in the soiled linen hamper
   (D) Used only in the room with the floor the linen fell on

2. A soft, synthetic fleece pad placed beneath the client:
   (A) Takes pressure off the back
   (B) Provide warmth for the client
   (C) Gives the client a sense of security
   (D) Should only be used with bedridden clients

3. A client’s psychological needs:
   (A) Should be given minor consideration
   (B) Make the client withdrawn and secretive
   (C) Are nurtured by doing everything for the client
   (D) Are nurtured when clients are treated like individuals

Answers: 1C – 2A – 3D

KNOWLEDGE PRACTICE TEST

Headmaster offers a free, ten question knowledge practice test at www.hdmaster.com. In addition, a free knowledge test question of the day, which changes every day, is available on the website. Candidates and training programs may also purchase complete practice tests online that are randomly generated, based on the Oregon state test plan. Each practice test taken will be unique. A mastery learning testing method is used. This means candidates must get the question they are attempting correct before they may move on to the next question. A first attempt percentage score and vocabulary feedback are supplied upon completion of each practice test. A printable list of vocabulary words to study, based on the questions missed, is provided at the end of each test. Single or group purchase plans are available. Practice test questions may or may not be current to the curriculum in your state. Visit www.hdmaster.com for more details.
