Films on Demand is a comprehensive collection of thousands of high-quality streaming videos covering a wide range of subjects in the humanities, business, and sciences. If you are off campus, you must access the collection through the RCC library link and log in with your RCC username and password.

Creating a Films on Demand Account

1. Go to the Library website and select the Films on Demand link, then choose the Films on Demand Master Academic Package or the FMG Archival Films & Newsreels Collection.

(Note: if you are off campus, you’ll be directed to login via the proxy server with your RCC credentials – if on campus, you will be directed instantly to the Films on Demand homepage)
2. To create an account, click the My Films drop-down link and choose “Create an Account”.

3. Complete the required information, including username and password (these can be the same as your regular RCC credentials!)

4. When you are done, click the “Create Account” button.
5. You will now see your name in the top right hand corner of the website; click this link to get access to your profile, account settings, and your favorite films and clips!

Add a Film or Clip to your Favorites

Now that your account is set up, you can start adding content! If you are regularly viewing and sharing clips online or in the classroom, it’s much more convenient to store your favorites in folders.

1. Use the search tool to find a video:

5. Click on “Go to Favorites” or click your profile name and choose “My Films” for easy access to your videos!
Linking to Films on Demand from Blackboard

The easiest way to allow students to watch Films on Demand content is to simply link to the specific video using the Blackboard link tool.

1. Find the video you wish to share with your students; click the “Share” button below the video, and click “Highlight” to select the link.

2. Either right click and choose “Copy” or use the Ctrl+C keyboard shortcut to copy the link to the clipboard.
3. Log into your Blackboard course and open the course area you wish to locate the video link; click **Build Content** and select **Web Link**.
